

# The **New** MI-4208 Patient Charge Labeling System **MedVantage**

**A VETERAN OWNED SMALL BUSINESS - GSA CONTRACTED**

The replacement for the METO 8200 label printing system is easy to implement and operate, rock-solid reliable and low maintenance.

Use **Stand-Alone** to create, store and print labels directly from the printer's display. DMXFiles for Windows® software included to download Excel, Word and other files from your PC and backup the printer's memory to your hard drive.

The MI-4208 can also interface with your computer to print labels from a terminal or PC. It is Windows® compatible and supports DMX language to interface with specialized software. Coax, Twinax, Ethernet and other interfaces available.

## System Features:

- Low cost **Direct Thermal** printing technology. (Thermal Transfer Also Available)
- Fast 8 inch per second print speed.
- 4" print head for use with larger labels.
- Selection of Barcodes and Fonts.
- Counter-top design.
- Durable steel construction.
- Windows® driver provided.
- Serial & parallel ports standard.
- Works with standard PS2 keyboard.

## Thermal Piggyback Labels:

- High quality material for clear imaging, reduced printer jams and extended print head life.
- Easy-peel-edge for easy removal and re-application to charge card.
- Color selection available.
- Compatible with the METO 8200, Healthcoder® and other printers.

**Replaces the no longer in production  
METO 8200**
